Eurodoc Symposium on Citizen Science at European Parliament

The 'Scientists with and for society' symposium, organised by Eurodoc and French national member CJC, took place on the 19th October 2018 in Strasbourg and included interactive presentations and round-table discussions on science in society. The focus of the symposium was mainly on open science, citizen science, science communication, science popularisation, and the role of scientists in the dissemination of an evidence-based culture. Eurodoc board members Gareth O'Neill, Auréa Cophignon, and Farouk Allouche actively participated in the event. [Read more...](#)

Eurodoc at Networking European Citizenship Education Conference

The Networking European Citizenship Education organised an annual conference on 'Brave New Worlds?! The Future of Democracy and Citizenship Education' in Marseille. Eurodoc board member Auréa Cophignon represented early-career researchers and presented the new Eurodoc task force on Citizen Science, that she is coordinating with Farouk Allouche. EPWS Survey on Women Scientists

The European Platform of Women Scientists (EPWS) invites you to respond to this survey, launched at the EU level. This survey aims to help women researchers in all disciplines and at all career levels to improve their working conditions, develop their careers, assess their professional networks, and better understand their needs and expectations. By answering this survey, you will help EPWS to develop appropriate policies and take concrete actions. The survey takes less than 10 minutes! [Read more...](#)

FOSTER Open Science Toolkit Now Available

If you wish to learn more about Open Science, then look at the new FOSTER toolkit which consists of a set of ten free online courses covering key topics of Open Science. There are five specific learning pathways which will skill you in Open Science, Open Source Software, and Open Workflows as well as to find the best open licence for your own research outputs. You will learn how to manage and share research data and preprints, how responsible research and innovation is accelerated through Open Science, and many other Open Science issues. See the toolkit! [Read more...](#)

Upcoming Events
